Terminal Disclaimer

The terminal disclaimer filed on 08/09/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of co-pending Patent Application No. 09/549,568 (U.S. Patent No. 6,842,748) has been reviewed and is accepted. Allowable Subject Matter

Claims 34-42 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 34, 37 and 40 are allowable because the prior art on record or that encountered in searching for the invention, fails to disclose or suggest the features of instant invention – “establishing a database for maintaining at least one record entry, the at least one record entry defining a relationship between an originating location from which a help request originates and corresponding locations of the plurality of help informational items that are related to the originating location, wherein the originating location is one of the plurality of help informational items and the at least one record entry includes a relationship type which is based on characteristic similarities between the originating help request location and the help informational items that are related to the originating location, and a relationship strength value which is based on the historical frequency of the selection by a user of the help informational items that are related to the originating help request location” in a combination as claimed by applicant.

Claims 35-36, 38-39, and 41-42 respectively depend from claims 34, 37 and 40 therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
